Georgia State University
Institutional Animal Care and Use Committee
(IACUC)
It is the responsibility of the Georgia State University (GSU) Institutional Animal Care and Use Committee (IACUC) to ensure judicious and humane use of animals used in its teaching and research programs that is consistent with federal requirements.*

Preparation of Biological Agents (infectious agents, tumor cells) Administered via Oral, Topical, Intranasal, or Inhaled Routes

- An appropriate diluent should be used (e.g. sterile physiological saline or other appropriate diluent).
- The substance should be stored in a sterile container, following standard sterility practices, as applicable
- The container must indicate the name of the substance(s), the concentration(s), and the date of compounding

Pertinent Regulations*
U.S. Government Principles for the Utilization and Care of Vertebrate Animals Used in Testing, Research, and Training
Public Health Service Policy
Guide for the Care and Use of Laboratory Animals
Animal Welfare Act (AWA) and AWA Regulations
